Open to relocation within Saudi Arabia

Professional Profile

Business analytics candidate with a finance/audit internship using Excel, SQL, Python and Power BI. Completed financial data validation, reconciliation tracking, a dashboard and handover findings. Portfolio includes a six-page e-commerce report using 400,000 simulated orders, retail profitability analysis and a 340-participant academic survey study.

Core Competencies

Data preparation: Missing-value and duplicate checks; data cleaning; validation; transaction reconciliation; exception documentation
Analysis and reporting: SQL; Python; Excel; Power BI; Tableau; KPI reporting; dashboard development; findings summaries
Business context: Financial transactions; sales activity; customer research; retail margins; order and delivery analysis

Relevant Analytics Experience

Analyst Intern - Finance and Audit Analytics Nov 2024 - Feb 2025
FundsAudit

- Collected financial and transaction data, checked missing and duplicate records, and prepared a cleaned, validated dataset using Excel, SQL and Python.
- Assisted with transaction and account-balance reconciliations; maintained a discrepancy tracker and flagged unusual transactions for review.
- Prepared supporting schedules and audit documentation, analysed basic financial trends and updated a Power BI finance/audit analytics dashboard under supervision.
- Documented findings and completed a final summary and handover notes for the team. Shared findings and progress updates with the supervising team.

Part-time Fundraising and Analysis Mar 2026 - Jul 2026
Support Direct India

- Combined part-time fundraising responsibilities with analysis assignments for Support Direct India.
- Used publicly available UNICEF India child-health indicators as a source for analytical work alongside fundraising activities.

Selected Projects

Independent portfolio work: Aug 2026 - present. Academic research completed during MBA.

Saudi E-Commerce and Last-Mile Delivery Analytics
Independent case study | Python, MySQL, Power BI, Excel | Synthetic data

- Analysed 400,000 simulated orders and delivery records, supported by customer, product and order-item tables.
- Developed a six-page Power BI report spanning executive KPIs, sales, customers, delivery performance, cancellations and returns.
- Compared order growth with delivered sales and average order value, and reviewed delivery-partner performance to frame commercial and logistics recommendations.

Saudi Retail Profitability Analysis
Independent case study | Transaction analysis, SQL, dashboard reporting | Synthetic data

- Analysed 30,000 simulated retail transactions across products, discounts, sales channels and cities.
- Compared estimated gross margins of 32.93% for non-discounted transactions and 18.94% for discounts above 10%, highlighting a 13.99 percentage-point gap.
- Documented category concentration and channel performance; presented findings as case-study observations rather than implemented savings.

Hashtag Effectiveness and Social Media Engagement
MBA academic research | Excel, SPSS

- Analysed survey responses from 340 participants to examine perceptions of hashtags, content format and social media engagement.
- Organised survey findings into a research report and developed content-testing recommendations; distinguished perceived engagement from measured campaign performance.

Additional Experience

Business Associate - B2B Sales and Marketing Aug 2025 - Feb 2026
TENAX

- Tracked sales activity and targets in Excel and supported business reporting, prospect research and internal coordination.
- Shared sales activity and customer requirements with internal teams to support reporting and coordinated follow-up.

Marketing Intern Apr 2024 - Jul 2024
Deals Squard

- Maintained prospect datasets, collected Google Forms survey feedback and compiled weekly campaign activity reports and feedback summaries.

Junior Accountant Oct 2022 - Nov 2023
Nilgiris
Part-time: Oct 2022 - Jun 2023; full-time: Jun 2023 - Nov 2023.

- Recorded financial transactions in Tally and supported cash, bank, supplier and inventory reconciliations.

Education

Master of Business Administration - Marketing Nov 2023 - Aug 2025
Sahyadri College of Engineering and Management (SCEM) | Visvesvaraya Technological University

Bachelor of Commerce Mar 2020 - Jun 2023
Milagres College | Mangalore University

Tools and Systems

Excel, SQL, Python, Power BI and Tableau; MySQL in the e-commerce portfolio project; SPSS in academic survey research; Tally in accounting work.

Professional Development

Excel, SQL, Tableau, Python and Power BI studied during MBA; advanced study and assignments, Mar-Jul 2026. SAP BW/4HANA learning, Apr-Jun 2026.
